Lang Arts / Math Classes		Lang Arts / Math Classes		Lang Arts / Math Classes		Lang Arts / Math Classes	

8/18/2010

Students will be with their homerooms for Language Arts and Math classes which are represented in the vertical columns above.

Science and Social Studies will be made up of a combination of two homerooms, and the horizontal rows indicate who will be in their science/social studies classes.

The number in parenthesis after a students name represent the track they have been assigned to during wheel courses.

Students will receive individual schedules on the first day day of school which will list their individual courses.
